

I am respectfully requesting that the National Association of Broadcasters' petition 04-160 be rejected. I feel that it is outrageous. I have satellite radio in my vehicle as well as my home because I choose to purchase it. It is not free to all but a choice that I make. I do so because I enjoy the premium programming. I should not loose some of my service simply because the NAB is somehow threatened.

Again, I feel that the petition should be rejected.
